## Our trip to Agios Nikolaos

---

In days 23rd to 29th we were in Greece on a Erasmus+ project. The city that we went to was called Agios Nikolaos. We were with four other schools from all Europe like Romanian school and two Turkish schools. It was a great time for all of us.

## 23rd April (Sunday)

---

We started our trip in Warsaw Airport. At 10.30am we flew to Athens. After that we travelled to Heraklion (a city near Agios Nikolaos). And then at 9.00pm we went by bus to our hotel in Agios Nikolaos. It was a very tiring journey, but it was also fun.

## 24th April (Monday)

---

- On the first day we visited the city of Agios Nikolaos. We made a tour around the city using a sightseeing mobile application. When we arrived at a viewpoint we took pictures and sent them to the app. Later when we got to the final destination we could decode the password. It was so fun. Later we visited KOUNDOUREIOS Municipal Public Library. In the afternoon we went to a restaurant with all partner students and teachers. We had gyros and some other Greek specialities.

## 25th April (Tuesday)

---

- On that day we went to the capital of Crete, Heraklion. The first stop was the Natural History Museum of Crete. We participated there in a workshop on virtual reality - part of a project to bring the knowledge of cave-dwelling bats to a wider audience. We also visited Knossos and Aquarium. It was so interesting.

## 25th April (Tuesday)

Then we saw an exhibition on both optical and visual illusions. The exhibition covered topics on how the sense of sight works, the colors and how humans perceive them and also how to trick human eyes. We also had the opportunity to familiarize ourselves with the basic principles of behavior during an earthquake in a simulator.

## 25th April (Tuesday)

After the MHSC workshops, we traveled to the ruins of the Minoan palace of Knossos. We visited this one of the most famous archaeological sites in the world with a guide and using 3D software installed tablets. The program allowed us to look into non-existent rooms, to imagine the size of this huge building of Minoan civilization and the basis for the myths of the Labyrinth, Minotaur, Icarus.

# 25th April (Tuesday)

Later we visited the Cretan Aquarium. One of the largest centers providing the opportunity to learn more about the nature of the Mediterranean Sea, containing about 2,000 specimens from more than 100 species of Mediterranean creatures.

# 26<sup>th</sup> April (Wednesday)

---

- In the morning at school we showed our presentation about the education system in Poland. We also participated in workshops on how to make holograms and overviewed applications for displaying images on VR goggles dedicated to handsets. In the evening we participated in a car rollover simulation, which showed us how important it is to drive safely.

## 27th(Thursday)

- On that day we went to the "Plaka" beach. After walking around the village and its lovely beaches, we went by motorboat to the nearby island of Spinalonga, which used to be an isolated colony for lepers.

## 28th (Friday)

---

- We went by car to see the mountains near Neapoli, we visited Elounda village and there we ate traditional Greek food. We saw the lake, where the canoe races are organized and we saw old mills, which were used to produce flour. After this trip we came back to Agios Nikolaos for sightseeing and shopping in the afternoon. In the evening there was an option for a night walk in Agios Nikolaos.

## 29th (Saturday)

---

- On this day we went back home. It was an early wake up at 6:30 a.m. and then we ate our last Greek breakfast. Then we went to the airport by bus to catch our flight to Athens. We had three hours stop in Athens' airport and flew further to Warsaw to meet with our families. The journey will stay in our memories forever. It was a great adventure.
